3000 CAVEMASTER(tm) The Paleolithic Role-Playing Game: Life without polyhedra dice? That's right! CAVEMASTER is a serious tabletop role-playing game set approximately 10,000 years ago. It's played with small handfuls of ordinary pebbles, which are picked up and divided between your two hands. Your opponent (usually the referee) does the same. Each picks one of the other's hands. The one revealing the most stones wins the challenge. Fights go quickly as both combatants can be hurt in a clash. Cooperative strategies make taking on large predators and prey of the Late Pleistocene. An optional "Spirit Magic" system lends a fantasy air. * Recommended for age 12 and up. 104 pages, softcover, \$23.95 SRP

Its weight is measured in tons, not pounds. It welcomes you to the Lost Valley with a rumbling roar that you feel from your collar-bones to the soles of your feet. Eureka! At last you have discovered the Dinosaurs of the Lost Valley! This is a source-book for Cavemaster, the award-winning Stonepunk role-playing game.
